

ABRASIVE PAPER

This paper backing is designed for abrasive application. The paper is covered with various sizes of grit to make sandpaper and available in widths suitable for all abrasive coating application machines.

PHYSICAL DIMENSIONS

Physical dimensions are according to customer requirements with a maximum of 3.4m wide.

KEY PROPERTIES

- Good tensile strength
- Good internal ply adhesion
- Good dimensional stability
- Smooth surface for fine grit applications

KEY FEATURES & BENEFITS

- Available in white or light brown colours
- Water resitant properties
- Anti-static properties
- Latex coated
- Wide range of grammages available (minimum 100 gsm)

Abrasive Paper

APPLICATIONS

- Belt format for furniture application
- Roll format for steel component manufacture
- Disc or sheet format

Available Grades	Abrasive Backing
